

Isolator Filter Stop

Code: KM ISSSF CP
Finish: Cadmium Plating

Stainless Steel Mesh Filter

Female Inlet: 15mm (1/2" BSP)

Male Outlet: 15mm (1/2" BSP)

Includes Backing Flange

Uses:

- Filtering
- Flow control
- Shut-off valve

Handy Tip: When used in very high pressure applications it is difficult to achieve a fine flow due to compression of washer. In high pressure applications use of a ball valve or fixed flow regulator is recommended.

Aquatica Warranty

Aquatica NZ Limited offer, from the date of purchase, a 2 year warranty on handshowers, a 5 year warranty on tapware and accessories and a lifetime warranty on stainless steel sinks.

Aquatica NZ Limited warrants that only high quality workmanship and materials have been employed in the manufacture of its tapware, accessories and stainless steel products. If any faulty workmanship or materials is proven during the warranty period, Aquatica NZ Limited will at its own cost repair, or at its option replace, the faulty product. The guarantee is non-transferable and proof of purchase is required.

The use of spray or abrasive cleaners of any kind will void the warranty. (Tapware should only be cleaned with a mild detergent and a soft damp cloth).

Failure to use an in-line strainer or filter on lines to tapware incorporating a ceramic cartridge or ceramic disc mechanism will also void the warranty. In the Bay of Plenty (or any area with a high mineral content) failure to install a 1 micro carbon block cartridge may void the warranty.

Every effort has been made to show the products as they will be sold, however, all models and specifications are subject to change without notice.
